

Matlab for Student Home Use

This applies to all students (undergraduates, Masters & PGRs) from all academic schools studying at the University of Huddersfield.

As we have a TAH Site license for Matlab & Simulink with Mathworks, you are eligible to download & install them onto your own personal computer to use for academic use only.

This is restricted to one computer & one user account to use this software. You may have to supply your Windows/macOS/Linux user account name (**not password**) to fully activate Matlab & Simulink.

When you graduate from the University, your access to Matlab & Simulink will cease to work & the software must be uninstalled.

You are not permitted to use this software for commercial use nor commercial research. Please speak to your school technical staff if you wish to use for commercial reasons.

Please complete the following steps:

1. Visit Mathworks website: <http://uk.mathworks.com/>
2. Click on **Log in** in the top right of the screen.
3. Click on the **Create Account** link to set up a new account. If you already have a Mathworks account (with your University email) then log in instead.
4. Enter details to create your account. You will need to use your University email address for this to successfully complete.
5. You will need to verify your email address.
6. When verified, complete the page with the rest of your details including name, password, University and to enter the activation key which is below. This should successfully create your account
7. On your account home page, click onto the license number. This is under the **My Software** section of the page.
8. You will now see Matlab & Simulink (along with any toolboxes the University has separately added to the license) and to download them click on the **Download** button on this page.
9. Download the latest version of Matlab & then select which OS you need to download for (Windows, macOS, Linux) and then run the installer.
10. When the installer opens, select the **Log in with Mathworks Account** option & click **Next**.
11. Accept the Terms & Conditions & then click on **Next**.
12. Enter your Mathworks account details & click **Next**.
13. Select the license that is associated with your account & click **Next**.
14. Choose installation folder & click **Next**.
15. Select which products you wish to install from the list & click **Next**.
16. Click **Install** button to download & install the selected items.
17. When installation is complete, make sure the **Activate Matlab** box is ticked & click **Next**.
18. On the page with activation text click **Next**.
19. Activation should be complete. Click **Finish** for installer to close.
20. You can now run Matlab & use it.

Matlab Activation Key:

01569-77439-39130-70189-38106 (**Do not share or distribute this activation key.**)
